MGB BASS

Length 435mm Width 335mm Depth 45mm

Solid Sassafras wood white maple top.

Rock Maple and Ebony grafted to body. Fitted with Maton adjustable truss rod.

African Ebony scale 864mm (34 ") with snowflake inlays and 20 jumbo nickel silver frets on the fretted model.

Hand shaped brass.

Badass Bass 11 gold.

Schaller gold.

Fingerboard Pick up Magnetics active PSC Bridge pick up Magnetics active JDCL.

1. Volume controls for each pick up.

2. An active tone control has been fitted in order to boost the bass and treble response giving a far greater range of sounds.

3. The rear switch is a by pass switch which in the forward position cuts out the active tone control and the output is direct to the amplifier. In the back position the active tone control is operative. The advantage of the by pass switch is that you can pre set the active tone control for solo passages.

4. The front switch is a pick up selector switch. The total power assembly is activated by a 9 volt battery (4000 hrs) fitted into the rear control cavity.

Rotosound swing bass long scale.

Hand polished gloss.

Available in oblong plush lined case.

Vibrant Sunburst, Black.

Neck adjustment for Electric Guitars and Bases is at the end of the fingerboard. The MATON "DOUBLE THRUST" Adjustable Truss Rod is more stable and efficient. No weakness at the head and end of neck area.

Wedge Shape Body Cross Section
